Unit Outlines

PLEASE ENSURE THAT YOU CHECK THE TRIMESTER 1 2021 UNIT OUTLINES FOR ANY CONTENT AND ASSESSMENT UPDATES AT THE COMMENCEMENT OF THE TRIMESTER.

MAA103 Accounting for Decision Making

The unit covers: the impact of accounting in society; business planning and budgets for management decisions; classification, analysis and summarisation of business transactions; preparation of classified accounting reports; techniques to analyse and interpret financial statements.

Assessment: 40% internal, 60% final examination

MAE101 Economic Principles

This unit addresses the theory of competitive markets, and the need for and effects of government intervention. This includes a consideration of the nature of economics, consumer behaviour and market demand, the firm – its technology and costs, market structures, markets for input, public goods and externalities. This unit also provides the microeconomic framework required to develop an appreciation and understanding of the pricing and output by firms and their implications for economic efficiency.

Assessment: 50% internal, 50% final examination

MMK101 Marketing Fundamentals

Marketing focuses on the creativity involved in the marketing process, ranging from understanding consumer needs to designing customer-driven integrated marketing strategies using the marketing mix as well as creating value for end users and business customers. It is the intention to build the knowledge on the marketing planning process and how this is successfully implemented in market and computer-oriented organisations that include profit-oriented companies, government and the not-for-profit sector.

Assessment: 60% internal, 40% final examination

MIS171 Business Analytics

The digital revolution has changed the practice of business. Data to support business decisions (data collected by business systems as well as through the Internet and Social Media such as Facebook and twitter) are growing exponentially and becoming increasingly difficult to understand and use.

Business Analytics is the broad use of quantitative reasoning skills in business decision making. Business Analytics helps managers to solve complex business problems, improve business performance, anticipate and plan for change while managing and balancing risks. This unit will provide students with the analytical knowledge and skills to explore data to find patterns and relationships in data; assess uncertainty and risk of business decisions; evaluate decisions; and forecast and predict trends.

Assessment: 50% internal, 50% final examination

MMM132 Management

The aim of this unit is to provide students with a critical understanding of the intellectual foundations of the study of management. The unit will provide the opportunity to analyse how the solutions to management 'problems' have developed under different conditions throughout the nineteenth and twentieth century. The unit also explores how management practice influences, and is influenced by, the external environment. This will involve examining how managerial action impacts on and is shaped by the environment, through a consideration of, ethics, social responsibility, and the social and cultural context of management.

Assessment: 50% internal, 50% final examination

MAF101 Fundamentals of Finance

This unit aims to introduce students to finance and provide an introductory knowledge of the Australian financial system. The unit will discuss some of the fundamental financial concepts such as the time value of money and the concepts of risk and return. Students will learn to apply these fundamental concepts in the areas of investments in equity and debt. These issues will be discussed in the local and international context.

Assessment: 50% internal, 50% final examination

MLC101 Law for Commerce

The unit provides the underlying concepts and purpose of Law for Commerce and the Australian legal system. The unit covers the law relating to contract, consumer protection, business entities and relationships, and torts with a focus on negligence.

Assessment: 50% internal, 50% final examination

MWL101 Professional Insight

The Personal Insight unit is a compulsory unit offered in Deakin's Bachelor of Commerce program and is also available to students from other programs and faculties within the University. The University recognises the importance of students gaining professional identity skills to enable them to understand them through Personal Insight. The unit aims to broaden students' self-awareness and understanding of the sophistication their career preparedness and means of communication necessary to be successful in both their business and personal lives.

Assessment: 100% internal

MAI010 Academic Integrity Module

The Academic Integrity Module is a compulsory zero credit point unit in all Faculty of Business and Law courses. The unit learning and assessment activities provide students with guidance on what constitutes academic integrity. It will allow students to develop knowledge, skills and good practice principles to avoid plagiarism and collusion and thereby maintain academic integrity.

This module consists of approximately 3 hours of online learning experiences delivered through Moodle. There are no classroom or scheduled learning activities. Students undertake independent learning activities at their own pace.

Assessment: 100% (Individual Quiz) – Online multiple choice questions
